

## Wood Drawer System

1. Metal center guides on bottom of drawer and case piece with polyethylene guides at front and back of guides with Positive Stops, see pictures below.
2. To remove drawer: pull drawer until it stops, then push drawer back in a little and pull out with a quick jerk to remove drawer.

To install drawer: line up guide on back of drawer to guide on the front of the case, once lined up just give drawer a good push and it will slide in.

3. Drawer sides to drawer front are French dovetail.

\*Drawer sides to back are an open dado.
