### Smart Navi™ 3.0

- Maps entire home with LDS (laser detection system)
- Systematic cleaning pattern for efficiency
- Generates interactive map on ECOVACS app to create virtual boundaries, go/no-go zones, and more

### OZMO™ Mopping Technology

- Vacuum and mop simultaneously
- Innovative electronic water pump to control water flow from tank to mop pad

### Multi-Floor Mapping

- Save up to 3 different maps, perfect for multi-level homes and/or multiple cleaning spaces
- Automatically recognizes the saved map/area it is going to clean
- Name each saved map to avoid confusion

### Carpet Detection

- Automatically detects carpet while vacuuming
- Will double suction power for deeper cleans on carpets
- Avoids carpet while mopping
