Cuisinart® Air Fryer Toaster Oven

Introducing a healthier way to fry, and so much more! The Cuisinart® Oven Fryer is actually a premium full-size toaster oven with a built-in air fryer. That means it not only bakes, broils, and toasts, it also lets you air-fry right inside the oven. Best of all, a large, 4-pound chicken requires only about a teaspoon of oil to fry! Air frying, which uses powerful ultra-hot air, is a healthier way to prepare delicious fried favorites, from wings to fritters to fries to shrimp. And since toaster ovens stay on the countertop, this fryer doesn't have to move back and forth, from cupboard to counter. Enjoy the crunch without the calories and messy cleanup, with the Oven Fryer from Cuisinart®!
