warranty		20 year	now & forever lifetime wear
installation method		nail/staple/glue/float	nail/staple/glue/float

Note: All woods are affected by light. Some exotic species will darken while other species will tend to lighten over a period of time when exposed to natural and artificial light sources. Some wood species darken and/or lighten at a faster rate than others. This is a natural characteristic of wood and does not constitute any type of product defect.

SHAW GREEN EDGE™

Epic's 3/8" thick hardwood products use approximately 50% less newly forested wood in their production than comparable engineered wood flooring. **That's the Shaw Green Edge!**

Key Selling Features

Shaw warrants to the original purchaser that the face surface of this engineered hardwood product will not peel off or wear through for as long as you own your home. (5" wide products)

This Shaw hardwood is warranted that the face surface of this product will not peel off or wear through for 20 years from the date of purchase. (3 1/4" wide products)

Shaw hardwood is labeled with a ColorVariation Rating to distinguish the degree of color variation within each box of flooring and between several boxes of the same color. This hardwood is rated CV2 Moderate with distinguishable differences in color variation. It is imperative that hardwood planks from various cartons be continually blended during installation to insure optimum appearance.

This Shaw product can be installed above, on or below ground level.

Epic hardwoods in oak, hickory or walnut are warranted to be installed over approved radiant heated subfloors when using approved methods of installation.

This Shaw hardwood is protected by our DuraShield™ finish, which provides superior wear resistance and lasts up to seven times longer than conventional UV cured urethane.

This Shaw product is made in the USA.

This product is made with Shaw's EnviroCore™, a high-density fiber core derived from recycled wood fiber, which means fewer trees are used with less waste.
