

Wolk 12" Memory Foam Mattress Layers

Layer 1: 2" Active Bamboo - Charcoal Memory Foam

Active bamboo-charcoal acts as a moisture regulator. Its porous structure absorbs moisture when humidity is high and releases moisture when humidity is low. Charcoal is naturally adsorbent of odor particles, thus eliminating bad odors from repeated use.

Layer 2: 2" 3.5 lbs Gel-Core Memory Foam

Gel-core memory foam regulates temperature with every movement and acts as the perfect transition layer between the study base foam

Layer 3: 8" Polyurethane Base Support Foam

Provides a heavy base to the comfortable 4" of memory situated on top of the bed, supporting every movement and ensuring longevity of your product.

450 GSM Knitted Cover

Removable and machine washable. Unique because it can stretch in any direction, along any awkward movement on top of the bed. Super soft and 450 GSM ensure the comfort is felt through your sheets.
