FOR YOUR SAFETY

We take your safety very seriously, that's why JAY-BE® products are designed and independently tested to meet internationally recognised Safety and Quality Standards.

For your extra safety, we advise that you do not stand/jump on the bed or use if a part is broken, torn or missing.

TAKING CARE OF YOUR BED

To clean your bed, use a clean damp cloth. To store your bed, we recommend that it is covered and situated in a dry area at normal room temperature. JAY-BE® Storage Covers, designed to fit your bed perfectly are available. Please see our website for more information **www.jaybe.com**
